RegulatingAI unites investors and policymakers at World Summit AI to make trust, ethics, and accountability the new currency of sustainable AI innovation.

RegulatingAI

RegulatingAI in World Summit AI

AMSTERDAM, NETHERLANDS, October 10, 2025
[/EINPresswire.com/](#) – At World Summit AI, RegulatingAI convened investors and policymakers for a pivotal dialogue on aligning capital with responsibility. The panel “Funding the Future: How to Invest in Trustworthy AI” went beyond conventional investment discourse, issuing a clear call for funding mechanisms that reward responsible innovation, not just rapid scaling.

“**If funding decisions reward transparency and trustworthiness, the market will follow.**”
— *Sanjay Puri*

The conversation brought together Vanessa Butera (Director of Data & Information Solutions, European Investment Bank) and Catalina Muller (President of ALLAI, Observer at the Council of Europe), with Sanjay Puri, President of RegulatingAI, moderating the exchange. They discussed how financial

frameworks can ensure AI development serves societal trust, ethical standards, and long-term sustainability, not merely short-term market dominance.
